PC Case
CST350 PLUS

Introduction

The CST350 PLUS is a very small Mirco-ATX case with a capacity to fit high-end graphics cards max to 320mm length. Support ATX or SFX PSU and vertical VGA installation. The CST350 PLUS is especially engineered for gamers with its sleek design, highly customized installation, and small size powerful system.

Features

TYPE-C HIGH SPEED

USB Type-C Design
One USB Type-C and two USB3.0 for faster data transfer

3.0 USB PORT

3.0 USB Port
For high speed transferring

M-ATX SMALLEST

The smallest M-ATX case

· The smallest M-ATX case

· Support ATX or SFX PSU

· Support 240mm radiator

· Tool-free 4 panel design

· High speed USB3.1 Type-C Gen2

· Support vertical VGA installation

· Pre-install 2 fans, support up to 7 fans

Product Overview

The best small case

391(L) x 185(W) x 303(H)mm, the exquisite compact design, especially suitable for modern house, making it an ideal choice for space-saving.

**Mesh covers on the front plates keep cool for long use**

Product Overview

Keep cool for long use

Cooling hole design on the top, bottom, front and side plates, with magnetic dust-proof mesh covers at 4 sides that keeps the dust out while enabling an optimal airflow efficiency.
Product Overview

Support M-ATX/ITX MB system
Two kinds of motherboard options for you to
configure your unique system as you want.

Support SFX / ATX power supply

For M-ATX system
Support the installation of M-ATX motherboard for higher compatibility and higher hardware expandability. When installing the M-ATX motherboard, the power supply should be mounted on the front panel side.

Air cooling
· When installing a vertical graphics card, the maximum height of the CPU cooler is 88mm
· When installing a horizontal graphics card but not installing the side frame is, the maximum height of the CPU cooler is 155mm

Water cooling
· SFX power supply is used.
· When installing a vertical graphics card, a 240mm water-cooling radiator can be installed horizontally at the bottom plate
· When installing a horizontal graphics card, a 240mm water-cooling radiator can be installed vertically at the side frame.

Product Overview

Ultra space-saving for desk

|	
ATX PSU **installed on the front panel**	· Horizontal VGA length 320mm · Vertical VGA length 245mm · Support 240mm water cooing radiator at the bottom
SFX PSU **installed on the MB's right side**	· Horizontal VGA length 320mm · HDD is not installed in the PSU rack · Vertical VGA length 245mm
SFX PSU **installed on the front panel**	· Horizontal VGA length 320mm · Vertical VGA length 245mm · HDD is not installed in the PSU rack · Vertical VGA length 270mm

Product Overview

Best airflow efficiency for optimal cooling

· When using a vertical graphics card, the fans cannot be mounted on the side and rear panels.
· Beside the rear fan position, other fan positions can be mounted 2 HDD or SSD
· When installing ATX power supply, only one fan can be mounted on the top and the side panel.

Product Overview

Tool-free easy installation for your convenience
