

SW-G5.1 3500

Looking for powerhouse stereo sound while playing games or watching movies? Then it's time for the new 5.1ch surround sound gaming speaker, SW-G5.1 3500, from the Genius GX gaming series. SW-G5.1 3500 delivers rich 80 watts of dynamic digital surround sound effects from a 5.1ch source input. With a heart thumping 6.5" subwoofer, SW-G5.1 3500 explodes with deep bass vibrations, no matter if you're in a fierce game battle or listening to blasting bullets from your favorite movie. The satellite speakers come equipped with a hook design you can easily mount to the wall for a cinematic experience. The dual input is great for use with a PC 5.1ch sound card, PC, MP3/CD player or TV audio devices. Just use the remote control to adjust the volume and bass, or change to a different 2CH or 5.1ch input source. The subwoofer LED displays random colors when playing music or movies for visual impact. SW-G5.1 3500 is ideal for any game enthusiast, just turn it on and be encompassed by an immersive 360° audio experience.
